

INSONOTEX

FLOOR SOUNDPROOFING SYSTEM

RESISTOSOUND SOUNDPROOFING PRODUCT LINE

INSONOTEX is a high density felt membrane specially designed to soundproof laminated floating floors, which can be installed directly on the membrane. This product not only soundproofs laminated floating floors but can also be used with other types of flooring such as hardwood floors and multi-layer engineered wood floors.

INSONOTEX

FLOOR SOUNDPROOFING SYSTEM

ACOUSTIC FELT FLOOR UNDERLAYMENT

ADVANTAGES

- Reduces impact and airborne noises
- Great protection against humidity and moisture
- Unscented
- Non-toxic
- Amplifies the thermal insulation value of the floor
- 100% recycled content
- Designed with Leed® philosophy in mind
- Suitable for all types floating floors
- Fast and easy installation

INSTRUCTIONS FOR USE

Unroll the material parallel to the wall with the vapour barrier facing up.

Seal the seams with the vapor barrier tape without overlapping the felt.

Install floor planks perpendicular to the long side of the Insonotex membrane.

PRODUCT CHARACTERISTICS

Dimensions: 36 in x 33.3 ft (0.91 m x 10.25 m)

Coverage: 100 ft² (9.3 m²)

Thickness: 1/8 in (3.2 mm)

Water Vapour Permeance: 0.25 Perm; exceed the NWFA requirements (National Wood Floor Association)

Weight: 14 lbs (6.25 kg)

Thermal Performance (R value): 0.32

PRODUCT PROPERTIES*

FIIC: 58 **FSTC:** 60

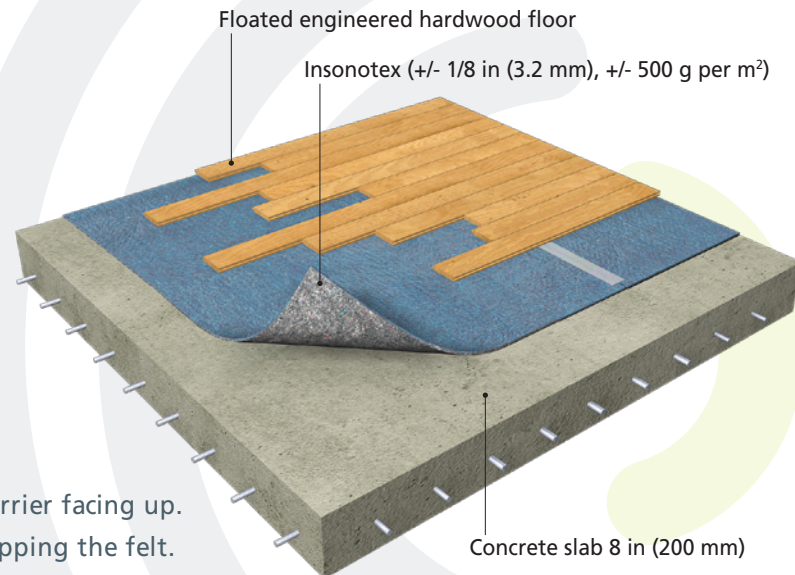

FIIC: Field Impact Insulation Class

FSTC: Field Sound Transmission Class

*FIIC and FSTC results are presented for information purposes only.
Equivalent performance cannot be guaranteed by Soprema Inc.

WARRANTY

RESISTO products are guaranteed against all manufacturing defects and to be suitable for all stated uses. Soprema's liability under this guarantee is limited to replacing or refunding the purchase price of RESISTO products found to be defective.
